

# SATA/PATA/IDE to USB2.0 Adapter Converter Cable for Hard Drive Disk 2.5" 3.5" User Manual

## I. Introduction

Hello valued customers! We have noticed that several of you are having issues with connecting the SATA/PATA/IDE cable to your device. We are here to explain how to use and install the cable to your device.

## II. Description

The package contents include:

- 1x IDE/SATA to USB cable adapter
- 1x IDE to SATA power cable
- 1x SATA data cable
- 1x AC-DC adapter
- 1x AC to IDE power converter
- 1x Users Manual

Please make sure you have all the contents above before installation.

## III. Compatibility

Before purchase, check if it is compatible with your operating system. Also, check if you have the correct hard drive.

This item only supports Windows 2000/ME/XP/Vista/7 and Mac OS.

This item is able to transfer data from SATA/PATA/IDE hard drives.

## IV. Installation

### SATA/IDE/PATA

1. Connect the USB to IDE/SATA cable to the device.
2. Connect the SATA data cable to the USB to IDE/SATA cable.
3. Connect the SATA data cable to your SATA drive.
4. Connect the IDE to SATA power cable to the SATA drive
5. Connect the IDE to SATA power cable to the AC to IDE power converter

- 
- 
- If your drive has a 2.5" IDE header or a 3.5" IDE header, you can use the USB to IDE/SATA cable to connect the drive to the device directly.

## • **V. Notes**

- For Windows 2000/ME/XP - no driver installation is required
- 
- For Mac OS 8.6 and higher - Copy Gene USB SATA/IDE\_05E3\_0702.sit to desktop and double click to get driver file. Copy driver file to [System Folder][Extensions]. Connect cable to computer then reboot system.
- 
- After installation, you can open the drive from C:// and extract files to device.
- 
- If the hard drive is not recognized, your operating system may be incompatible.
- 
- **Thank you for reading! We hope you enjoy the product. If you have any questions or concerns, feel free to contact us. Customer satisfaction is important to us.**
